

Inkflow Plus / Qrayon, LLC	<b>NAME/ DEVELOPER</b>	Notability / Ginger Labs
Good note-taking, but shines at all things graphic. Simple user interface.	<b>SUMMARY</b>	Excellent note-taking app with good graphic tools and some unique features.
Full resolution zoom, change script to thin or bold by zooming, rotate, customizable full color palette, change opacity, re-size any element.	<b>UNIQUE FEATURES</b>	'Magic box', Audio recording in synch with note-taking, importing PDFs for markup. Pages scroll vertically, with parts of two pages usable at once.
iOS / iPad, iPhone and iPod Touch	<b>PLATFORMS/ DEVICES</b>	iOS / iPad
\$7.99	<b>PRICE</b>	\$4.99 (on sale for limited time at \$1.99)
Gallery of notebooks with unlimited pages each, organized and searchable by name or date. Navigate notebooks by arrows at top of page or by scrolling through thumbnails.	<b>NOTE STORAGE/ ORGANIZING</b>	Library holds notes in CATEGORY folders with SUBJECT tabs. Also viewable as ALL, UNFILED, or by search results. Unlimited pages with three ways of accessing them - scrolling vertically, page up/down buttons, and thumbnails.
Add text box anywhere with or without colored background using over 50 fonts with styles and sizes from 1 to 360 points. 8 preset colors, customizable with unlimited full color palette.	<b>TYPING/FONTS/ SIZES/COLORS</b>	Text or floating text box. About 50 fonts in sizes from 8-96 points. 16 colors; you can set three favorite font-size-color presets to quickly change for, say, headings.
Pen, pencil, brush and eraser. Variable line width, exaggerated when zooming.	<b>DRAWING/ WRITING TOOLS/ COLORS</b>	Handwriting tool with 12 line widths and 16 colors, eraser, undo/redo.
Can define a background for text or paint over text or drawing/writing with brush. (Text always on top)	<b>HIGHLIGHTING</b>	Highlighter tool with 12 line widths and 16 colors, eraser, undo/redo.
No. See Stickyboard2 App.	<b>STICKIES</b>	Yes.
No. See Vittle App.	<b>VOICE RECORDING</b>	Yes, synced with notes. Tapping a notation during playback plays what was recorded when that note was written.
Zoom in and out by pinching, lasso to select and move, selection can be re-sized or proportions changed.	<b>ZOOM/MOVING/RE-SIZING</b>	Zoom in and out by pinching, also has a zoom window with an enlarged input area that moves ahead as you write, the 'magic box'. Select and drag to move. No re-sizing.
Yes.	<b>CUT/COPY/PASTE</b>	Yes.
Email, Tweet, save snapshot.	<b>SHARING NOTES</b>	Yes, by email, Dropbox, Google Drive, Twitter, Box, WebDAV, Printer, iTunes and open in another App.
Add picture anywhere, move, re-size, change to b/w	<b>IMPORTING, ADDING PICTURES</b>	Imports photos from albums, or taken by camera, a figure drawn in a separate tool area, web clips, Stickies, and PDFs from other apps (for markup/annotation)
PDF or JPEG, open in any other Apps that support those formats including Dropbox, Evernote, Google Drive, etc for access from anywhere	<b>EXPORTING</b>	See Sharing
See Exporting	<b>INTEGRATIONS</b>	See Sharing. Also will auto-synch to your favorite cloud service and backup to iCloud
Five types of stationery plus create custom stationery from photos, make it color or b/w, change intensity.	<b>STATIONERY</b> Changing page background	15 colors with 4 line and 4 grid sizes
Very similar to Penultimate, but overcomes the limitation of how much you can write on a page by added features - zoom, text, re-sizing ink, pencil, brush, unlimited colors. Great for brainstorming ideas or laying out web pages because you can move things so easily. Real strength is in anything graphic, sketching and drawing.	<b>BOTTOM LINE</b>	Excellent for note-taking. The 'magic box' input allows dense handwriting similar to pen and paper notes. The tools provide for many ways of adding graphics. The recording feature could be very handy.
