**Re: Redwood PPEC Remodeling
Fort Mitchell, KY**

Enclosed are:

1. Four sets of construction documents for the above referenced project.
2. One Plan Application Form
3. One Fee Worksheet
4. Check in the amount of \$250

This project is a remodeling of part of a previously approved project. The work consists of minor plan layouts and changes to mechanical and electrical systems. Your case number for the earlier project is 024654-002-A

The mechanical and electrical work is being done under **Design/Build** contracts and those contractors will submit separately for permits for their work. These drawings show the intended scope of the Design/Build work. Only some of the sheet have been signed and sealed because of the later permit submittals.

We request that you review these documents for code compliance and issue your approval at your earliest convenience.

Should you require additional information or should there be the need for corrections, please bring this to our attention as soon as possible so as not to delay construction.

Thank you for your assistance.

Sincerely,

Rick Wolnitzek, Principal
